

AcquaBlu Medical Spa & Skin Care Center

Project: Medical Spa and Skin Care Center

Architect: Lami Grubb Architects

Owner: Acqua Blu

Shannon Construction was awarded the build-out of Acqua Blu at the Paradise Shops in Upper St. Clair, PA.

This project included custom designed retail millwork throughout to meet the owner's high expectations. The finishes included, valances with polycarbonate panels, framed wood shelves with glass overlays, pearliest finish around frames, and tranquil water-wall feature. The lighting fixtures throughout the prestigious spa area were elegant and displayed a warm feeling.

The medical rooms required a specialized HVAC control system, medical cabinetry, and overhead operating light fixtures.
