

Newmark Grubb Knight Frank

Project: NGKF, K&L Gates Building, 6th Floor renovation

Architect: NEXT Architecture

Owner Rep.: Ed Manko, SVP and Dir. NGKF
T 412.434.1049

Completion and Cost: Projects completed in 2013

Shannon Construction was awarded the renovation of Newmark Grubb Knight Frank space on the 6th floor of the K&L Gates Building encompassing 17,000 SF.

From value engineering the entry sign saving the client's budget, to reducing costs of a magnetic glass solution for the conference room, Shannon Construction partnered with NEXT architecture to ensure design integrity while providing value for the client.

Shannon Construction updated this occupied space visually and mechanically with the least disruption to NGKF employees as possible, on time and within budget.
