Letter of Recommendation - Shannon Construction

RE: Commonwealth Charter Academy, Johnstown

To whom it may concern:

Shannon Construction served as general contractor for the newest Commonwealth Charter Academy location at 647 Main St, Johnstown, PA. The project included the renovation of four floors in a 100 year plus building as well as significant exterior work. The team continuously impressed with quick response time, problem solving, and ingenuity. We selected Shannon Construction to complete the project for exactly those reasons. The team of Nick Rosky, Shawn Bulsak, Tammy Chiesa, and Matt Smith provided leadership and maintained clear communication throughout the project. As interesting situations arose, the Shannon team did what was needed every time and made certain the subcontractors followed in that same vein.

We are extremely satisfied with the final product. As this is our second completed family service center location with Shannon we were well aware of their dedication and craftsmanship. The quality of the workmanship and the project management team met all of our expectations and delivered another space in a tight time frame. Shannon's attention to detail, prompt response time, and open communication were critical to the success of our project and we could not be happier. I personally look forward to working with Shannon Construction on our next Western PA projects in both Erie and Cranberry, PA.

Sincerely,

*James Skinner*

James Skinner, Director of Facilities and Safety

Commonwealth Charter Academy
